## WARD & PAYNES' Sheep Shears

OBTAINED

THE ONLY GOLD MEDAL

For Sheep Shears

AT THE

INTERNATIONAL Exhibition

MELBOURNE

1881.

Ward & Payne's Shears No. 100 and 125 are very much improved and manufactured specially for this country.

They are made of the best steel and in price and quality will compare favourably with any others in this market.

They can be had direct from the importers J. MOHR BELL & Co. or through all Hardware dealers.

### Facts worth knowing

1—During last season the demand for WARD & PAYNE'S Shears in Australia was so excessive that cable messages were continually being sent for increased supplies.

2—Single pairs of WARD AND PAYNE'S Shears clipped 3,000 heavy woolled sheep, and the most expert clippers in New Zealand affirm that they can clip nearly 10 sheep per day more with these Shears than with any other.

3—WARD & PAYNE are introducing two new Patent Shears No. 200 and 'The Equalizing Spring' for which they claim superior advantages. The undersigned will be glad to forward sample pairs on application.

Messrs. A. BULLRICH & Co. beg to call attention to their sale of LINCOLN LAND on the 14th inst.

Anybody having say $20,000 cash can become owner of 1000 hectareas, nearly 600 squares, of excellent land, having eight years to pay balance without interest. Supposing that the price per league in auction be $140,000, the purchaser, by paying cash, can reduce the amount to about $119,000, obtaining 25 per cent discount in Bills payable to Government.

Do not forget that it will only take about $20,000 cash to purchase nearly 2,400 acres of magnificent land.

TESTIMONIALS.

From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—

"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that dip keep scab out of the flock."

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—

"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

### CLOSE OF EXHIBITION

The closing of the Exhibition at Palermo to-day is a ceremony which suggests a few remarks. All the objects for which the Show was organized have been realized, and the valuable prize animals sold; the auctioneer has already played his part, and it remains only for the President of the Rural Society to deliver a short valedictory, and the doors will be shut till the ensuing year.

If at other exhibitions we have seen a much more numerous show of sheep, cows and horses, we must also admit that never before had we such a varied exhibition of products from the provinces, cereals, wines and agricultural implements; and although, as we have already stated the native bred Negrettes from Messrs Ocampos, Chas and Brunkhorst's establishments are fully equal to the very best that Germany can produce still there is no denying the fact that this exhibition speaks more of the progress of the country in agricultural than pastoral industry.

Let it be accepted as a fact that the country is to-day advancing faster in wheat, lino, sugar, wine &c. than in hides, wool and tallow, and the exhibition proves it. Nor was there wanting evidence to show that the mind and brains of the people in the country are more bent in that direction. The sheepfarmers, the richest gremio in the land, were really nowhere, whilst the sturdy colonists of Santa Fe halted the crowd at the very doors of the building with the splendid invention of a double steel plough. Had the plough come from old England or the United States it would not have attracted such note, but invented made, forged and wrought away up in the wilds of Santa Fe, it was a telling proof not only of the rising industry but rising ingenuity of that colony. Another marked evidence of the brains of the River Plate farmer is a huge harvesting machine, called the Colombo, made in Chivilcoy, and side by side we found a machine patented in Lujan for separating the bran from the flour. At the portico of the main aisle was a little sewing machine worked by the slight pressure of a little water in a watering pot, also the offspring of River Plate brains and ingenuity. Whilst on the other hand the space occupied by the splendid machines for agriculture &c. by the Drysdales, Forresters, Schwartzs, Marti, J Mohr Belr and many others, when compared with the few stalls with cows, horses and sheep, shewed that to-day the bent of the country is agriculture more than stock breeding.

Of course we are the last to say one word to dishearten the sheep-farmer or estanciero, but we report what we saw. The sheepfarmer at this Show was nowhere, whilst the agricultural farmer, his wants, his products and his agents pervaded every corner of the building. The samples of wheat, rice, sugar, tobacco flax, silk, wines, oils, honey, wax, all crowded on the attention of the visitor, and the names of the provinces Mendoza, Tucuman, Rioja, San Juan, Santa Fe etc. usurped the places once held in such shows by the Pereiras, Vivots, Casares, Chas, Sheridan, Fair, Hannah and others.

The week's Show has been ample to convince us all that the country is steadily and rapidly advancing, and advancing on those splendid highways of industry which make a great people and a great nation.

### THE LOCHT PANTELEPHONE

The Parisians have been holding an International Exhibition of Electricity, and of every instrument connected with that force. The exhibition is naturally off the common, and has given a serious shock to Paris; no less than 1700 electric light lamps are consumed in this interesting exhibition. All around the galleries is placarded in large letters, 'Not to be touched; contact of visitors' fingers is pretty general during the day time, when all the infernal machines are at rest, but at night there is no necessity of impressing the visitors with the prohibition. As soon as the sun sets and daylight wanes into night all the machinery is set going and enough electricity produced to set the globe going at double its present speed, if the 'savans' only knew how to apply it. It appears that one evening one of the carbon-burners dropped, threatening a general conflagration; no sooner was it known than the electric fluid instantly summoned a regiment of 'bombeurs,' who arrived with engines and hatchets on the spot. The charcoal was soon put out, but the commander of the valiants 'Sots,' who seemed to have learnt an inkling of natural philosophy, ordered his men to seize the connecting wires of the machine; the effect on the anatomy of the Bomberos was magical, since they were all laid on their beam ends in the middle of the hall. Owing to this circumstance, and the constant damage attending this exhibition, all the firemen have been provided with gutta-percha gloves. But these are secondary items to the heading of this column. It appears that telephones were also lined along the Champs Elysees, and M. Locht's pantelephone carried off the palm over all competitors, exhibited or not exhibited. The French journal the *Electricité* commends the Locht system in the highest terms, and speaking of the trial on that beautiful avenue states:

"Of all the telephones installed in the Champs Elysees, the one that has obtained the most complete success is no doubt the Pantelephone, of L. de Locht, adopted by the Government of the Argentine Republic.

"Presenting a marked contrast with the other telephone companies, that are installed with an extravagance of precaution in the smallest details, the telephone posts of M. Locht are adapted, without any precautions whatever, to timber sup porters.

"In spite of the overwhelming noise of the neighbouring machines, of the hammers and of the rush and bustle of the crowd, in front of M. Locht'e apparatus, the telephonic communication is very easy, and visitors withdraw quite astonished at the result of the extraordinary experiments they witness. The speaker may withdraw a distance of ten yards from the apparatus and his words are clearly heard repeated at the other extremity.

"Whispers at half a yard distance are perfectly audible at the other end.

"We may add that of all the telephones the Locht Pantelephone is the simplest and the cheapest, only costing half as much as the other system. It is also the one that harmonizes best with the theory of the propagation of sonorous vibrations.

### ROSARIO.

(*From our own Correspondent*)

October 8.

Our magnificent system of Federation, giving the Argentine people fourteen Sovereign and independent Governments, does not work as brilliantly as its founders fondly anticipated. There certainly exists on paper extradition treaties between the high contracting parties, but the formalities requisite are something on a par with those recognised between France and Russia. The result is, that robbers and murderers in Buenos Aires, in Cordoba, in San Luis, &c, find secure refuge in Santa Fe, and vice versa.' The police, for instance, of Buenos Aires, give hot chase after a 'cuatrero,' who, like Tam O'Shanter, is fleeing for his life. He reaches the Arroyo del Medio, plunges in and, throwing himself from his reeking horse, calmly prepares for a 'siesta' in sight of his baffled pursuers, who well know that

A running stream they dare not cross.

Things have got to be so bad in this sense that the powerful monarchs of Buenos Aires and Santa Fe, King Dardo and King Simon, have consented, through their Plenipotentiaries, to celebrate a Police Treaty, in virtue of which, by some means which are not yet published, and which, of course, must 'salvar la diguidad' of both potentates, the police of each nation, province I mean, may assist each other, instead of coming to loggerheads, as they invariably do now.

We are accustomed to look to our *Standard* for reliable information on every subject. Please tell us what has become of the grand scheme of a Railway from San Luis on the Mississippi, to Cape Horn; has it come to grief? If so, I will propose one to our go-a head Government; one that in this wonderful development of Argentine prosperity must commend itself to President, Ministers and Congress. Here it is: To start a broad gauge line (I insist on the broad guage) from the Central Station, Buenos Aires, cross the Parana at Obligado, run through the Banda Oriental, the provinces of Rio Grande and Santa Catalina to Rio Janeiro, thence through Minas Geraes and Bahia to Pernambuco. Here a fleet of Great Easterns will be ready to transport passengers and freight to the nearest point of the African coast, say Senegal, only a voyage of three days. From Senegal the railway will continue through Sahara, which everybody knows now is no desert, or through Morocco to the Straits of Gibraltar, which will be passed by means of a tubular bridge, then on across Spain, under the Pyrenees, to Paris. The trip to Europe can be done by my scheme in nine days. May I ask the *Standard* to assist me in the event of my forming a Company? I think I can depend on Congress, which has shown a most patriotic spirit in flying at the grandest financial game. You shall have ten shares, but keep this secret. Remember Lord Byron and 'My Grandmother's Review.'

We shall soon have wine, genuine wine, to send to France to return to us in the shape of falsified Champagne and Chambertin. See what a paper says—"It is enough to say that between Mendoza and San Juan there are at least ten thousand cuadras (forty thousand acres) of vineyards, giving fifty barrels of wine per cuadra, which makes half a million of barrels, worth ten millions of gold dollars."

It is not more than a dozen years ago when San Juan and Mendoza thought themselves growing weal thy with the exportation, on the backs of mules, of a few thousand boxes of dried peaches and raisins, and a few hundred barrels of aguardiente to Tucuman, Salta and Cordoba. What little wine was left after the distillation of the greater part, after being made into a kind of sweet soup, was consumed at home. Dry soup was not to the taste of the people. Even now you cannot persuade a San Juanino to prefer the delicious Amontillado-flavored dry sherry, which can be made in any quantity there, to the same wine doctored to their taste by a disgusting sweet processs they call 'arrope,' which completely destroys the true flavor of the wine. It is fortunate, however, that they have found out that the taste of the Litoral is decidedly averse to 'arrope.'

The heavy rains we have had here caused a little anxiety about the wheat crop, but I think my fears are premature, for the wheat is not yet headed to any extent. I think we may look forward to a grand harvest. The weather here is very favourable, a bright clear sky and a cool atmosphere.

I am always rather dubious about copying figures from our papers, for their editors are not very familiar with the relative value of the ten nmerals, and often forget that the absence of one figure or the addition of another interferes very much with the accuracy of a statement. But I give you a data about the Tucuman Extension, as I find it in the *Capital*. In eight months work there are only four leagnes of earthworks done, owing to the nature of the ground and heavy rains, and also to an inadequate supply of hands. Of the eight hundred workmen recently received, only forty have remained at their posts. The number now on the line is eight hundred, and only a part of these are at work. By this it would appear that the Extension is not being made as rapidly os our friends, the Salteños, would desire.

I see that a daring inventor of the colony 'Libertad' (where is this colony?) has made a new steam plough, for which he asks a patent for ten years. It is to plough four acres in two hours. This is equal to squaring the circle, or circling a square? Who doubts of the progress of the Argentine Republic?

## BARDS AND REVIEWERS.

Of all duels that with the pen is the most sterile in result: stale, flat and unprofitable, and were it not that my cause is that of the public (of whom the *Standard* is a time-honored champion) I would relinquish the field to De Montheolo and posterity.

Reporters are proverbially daring, especially since Jonathan founded the 'interview' school; we find them everywhere.

'Up stairs, down stairs in my lady's chamber,' now at Coomassie, now in Candahar, and in the thick of the fight, seeking the bubble reputation even at the cannon's mouth.

But there is a limit to audacity, and decorum steps in to maintain that thin partition referred to by Swift, where mental extremities meet. The venture of D'M to snuff out public taste with his professional quill is somewhat risky, and the announcement that he has gained his title in other lands confirms the oft quoted *'Cœlum non animum mutant.'* Like the Bourbons he has evidently forgotten nothing.

Public appreciation is a delicate matter to handle. When the 'Nozze de Figaro' was hissed off the Paris boards there must have been some titled critics at the bottom of it, but history has put it down to an undiscriminating public.

Herold in Buenos Ayres fares better than Mozart in Paris. Here the audience, trained to good music, recoguizes in Mr Grau's troupe every good quality, whether dramatic or lyric; but, because the pit does not rise to the artiste nor the gods burst their gloves with applause, D'M comes down with his strictures on good taste and, with his professional quill, proclaims a censorship for Music on benefit nights, with regulations to be strictly adhered to on subsequent and similar occasions.

Evidently youthful and giving promise of something better, let D'M pause on the threshold of reporterism and exchange the pen, if needs be, for the plough: I note his penchant for a classic field.

I will ask D'M to cast his eye over the following critique, probably written by Parson Bates, pugilist, duellist and critic in 1782, and let him reflect on what he might drift into if he continues to cultivate letters:—

"On Saturday Mrs Siddons, about whom all the world has been talking, exposed her beautiful, adamantine, soft and comely person, for the first time, in the Theatre Royal, Smock Alley. The house was crowded with hundreds more than it could hold, with thousands of admiring spectators that went away without a sight—she was nature itself—she was the most exquisite work of art—several fainted even before the curtain drew up. The fiddlers in the orchestra blubbered like hungry children crying for their bread-and-butter; and when the bell rang for music between the acts, the tears ran down the bassoon player's eyes in such showers that they choked the finger stops and, making a spout of the instrument, poured in such a torrent upon the first fiddler's book that, not seeing the overture was in two sharps the leader of the band actually played it in two flats; but the sobs and sighs of the groaning audience, and the noise of the corks drawn from the smelling-bottles, prevented the mistake being discovered.

The briny pond in the pit was three feet deep and the people that were obliged to stand upon the benches, were in that position up to their ancles in tears. An act of Parliament to prevent her playing will certainly pass, for she has infected the Volunteers and they sit reading the 'Fatal Marriage' crying and roaring all the time! etc."

## EDITOR'S TABLE.

The R.M.S. Neva arrived and the F.M.S. Orenoque sailed yesterday. Between them the General Post Office was rather a lively place all day long. The Neva does not bring any later dates, but some general news by her will be found in our Supplement.

Mr. Egerton, H.M. Charge d'Affaires. Mr. Vansittart, attaché, Capt, Bainbridge and Mr. Bridgetit, Act. Consul, were on the Mole yesterday to receive Mr. Petre, the new British Minister to this Republic, whom we cordially welcome to the River Plate, and we hope that, like his predecessor, Sir Horace Rumbold, he will like the country so much that he will invest in land. No Minister has ever arrived at a more favourable time for purchasing an estancia.

In reference to the English Ladies Petition to the Municipality in favour of the Sunday Closing edict, we beg leave to adopt a second thought viz, to send it round for signature, to save ladies the trouble of calling at our office. One of the oldest English residents in the city has kindly volunteered to take the petition round for signature.

Mr Emilio Castro's house was crowded all day yesterday with anxious friends and enquirers as to the state of his wounds, which, we are glad to say, is as favourable as can be expected. The criminal is an old negro soldier (now a 'chanagador') named Gutierrez, who served under Don Emilio at Pavon, and the cause of the crime is said to be a very old grudge, for then Commander Castro having included Gutierrez in a body of 30 men who were sent on some specially dangerous duty. The negro evidently premeditated the crime, as he bought a new knife wherewith to commit it. As Mr Castro was entering his house in Calle Reconquista, at 3½ p.m. on Friday, he saw the negro lounging about and said to him in a friendly way 'how are you old man?' Gutierrez replied 'not so well as you,' and at once rushed on Mr Castro, inflicting a gash on his face: Mr C. turned to rush into his house, as he had no means of defence except a light walking cane, and then the negro gave him another slash, behind the ear, subsequently turning to escape, but a sergeant of police met and seized him. Three doctors—Bortolazzi, Feñandez and Castro y Sundblad were at once in attendance. They found the face wound the worst, the blade having injured the under lip, the tongue and a gland: the teeth turned the point and prevented a more serious injury. When taken to the Cabildo Gutierrez coolly denied the whole affair, saying that another man, who had escaped, was the criminal. He is a most repulsive looking fellow and pretends to be mad.

The telegrams from Chile published yesterday confirm the report afloat for some days, to the effect that the United States Minister at Lima has announced that the Washington Government will be sorely displeased if Chile attempt to annex any Peruvian territory. This is quite distinct from saying that the United States 'will not allow' any annexation. Nevertheless, it places Chile in a very ticklish position.

## "FIRST LOVE."

The following is the plot of Scribe's comedy of 'First Love,' which will be given on Wednesday night by members of the English Literary Society at the Concordia Club;—

"Mr. Livingston, an illiterate but rich widower, is desirous of seeing his only daughter, Emily, married to Van Zandt, a rich and accomplished young neighbour of his, who has just returned from abroad and whom he has not seen for many years. Emily is unwilling to comply with her father's wishes as she has preserved a romantic attachment for a cousin of hers, Charles Fox, a harum-scarum young blood who has also been abroad for several years and returns home unexpectedly. Charles has got married in Canada to a girl as poor as himself, and being, besides, deeply in debt, is afraid of facing Emily and her father. He arranges with Van Zandt that they are to change names, the latter assuming the character of Charles, and Charles that of Van Zandt—the one to win a bride, the other to avoid one. This move gives rise to the funniest misunderstanding, but it is needless to say that all ends well. Charles is forgiven, and Van Zandt obtains the hand of the young lady, who is very much in love with him, believing him to be the object of her girlish affection. So much for First Love!"

H.M.S. Dwarf, Captain Bainbridge, sailed yesterday for Montevideo, and will shortly start for home. We wish her favouring gales.

A Lawn Tennis match was played at the Cinco Esquinas on Thursday last—Gardom and Garland for the Camp, versus Boadle and Vincent for the City. The rustics won.

Mr Grau, the French empresario, has issued a manifesto of thanks to the Public of Buenos Aires, informing it that his Company will leave for the United States positively on 25th inst, up to which date there will be a performance every night except Friday, the operas to be given being—La Traviata, La Mascotte, Les Noces d'Olivette, La Grande Duchesse, Barbe Bleu, Les Brigands, Les Mousquetaires au Convent, Geroffe-Giroffa, La Fille du Regiment. Madame Privat has been engaged by M Grau for three years.

One of our native colleagues is rather surprised at the splendid appetites enjoyed by the members of the British House of Commons, as evidenced by the fact that, during the debate on the Irish Land Bill they disposed of 10,250 breakfasts, 9,508 lunches, 10,594 dinners, and 278 suppers. The effect of clear consciences' colleague.

A horrible murder was lately committed at Fort Rivadavia, where a young Spanish 'pulpero' was fatally stabbed six times by a man named Ortiz, because he refused to give him any more credit.

The Excelsior Society had a very successful closing meeting on last Thursday night. There was a large assemblage of the friends of the members. The entertainment consisted of music and recitation, and was most enjoyable. Mr. Rupp presided at the piano, and also played two solos which were greatly applauded. Mr. MacKinlay gave two recitations in his usual inimitable style. The entertainment ended most appropriately with a general chorus of that grand old Caledonian ballad, 'Auld Lang Syne.'

The gold market suffered a sharp reaction to-day, owing to the great scarcity of paper money. Many of the houses sold gold cash to obtain ready paper, and all the stocks in the market were affected to-day by the tightness of paper money. Cedulas were offered at 99⅛ cash and could not be sold, and as for National Bank Shares, any attempt to sell cash a large number of shares would turn le the market, which is at present with such difficulty maintained. Gold opened cash at 25.60 and closed at 25.55; cash sales, 160,844 pats, the bulk of which was sold at 25.60; prices for Dec. and Nov. ruled easy at 25.55, being ten cents under yesterday's figure. One large holder of gold sold off everything for end of month, but bought back for Nov, and so is the market; even those who sell cash distrust the market and secure on time.

Cedulas are more than ever offered on the market and prices rule very weak; a large amount they say will be delivered at the end of the month, and people seem nervous about finding the money to pay for them; cash sales 15,000 at 99⅛, and for end of month 115,000 sold prices dropping from 99⅛ to 99⅛.

Nat. Bank Shares rule dreary as ever; 658 sold cash, opening at 118½, going to 119, then dropping to 118 and closing at 118⅛. For end of month most business done, opening at 120, tumbling to 118⅛, and closing at 119½. For December 50 sold at 116.

Tramway Belgrano Shares 20, sold at 50.

Nat. Bonds one lot 3600 at 90.

Messrs Rich. and Thos. Lett were welcomed on Change having arrived up from Curumalan after a fortnight's trip. They report the camps magnificent and were particularly struck with the aguadas; the squatters on the Curumalan lands never dig wells, but depend on the waters of the arroyos, which shows how good the water is. Nearly all the camp about there sheep may be driven on to, as the pasturage is soft, fine and the same as the sheep camps inside. It is probable that the lands down there will soon be rented by sheepfarmers, as Mr Lett met 2 Englishmen on the road going down to see the lands for themselves and others to rent them for puestos. All the lands are to a certain extent stocked, chiefly horned cattle, and the progress of the north is nothing compared with what is going on in the South. Mr Lett purchased on the Pigue adjoining Mr Casey's Curamalan lands 3 leagues on which to-morrow 5 or 6 flocks could be put, part of the camp being fine. He also speaks highly of Mr Fair's land and the camps generally on the Arroyo Pigue. The lands down there are not inundated, and at Guamini fish every morning for breakfast.

The Bolsa opened this morning with a golden ring. The Neva it seems brought £60,000 stg. in sovereigns more than people thought, the latter remittance being to the Banco de Italia y Rio de la Plata. There was a complete change in the market since yesterday, and so much gold thrown on the market that prices tumbled since yesterday 15 cents, sales having been made as low as 25.50. Aside, however, from the increased gold consignments on board the packet, the news spread in the market that Dr Jorge had signed yesterday a memorandum with the house of Baring Brothers which gave the Provincial Bank an increased open credit of £500,000 stg. In fact there can be little doubt that but for the cloud that hangs over Patagonia gold would next month be par. But every day the Chilian question is assuming new importance and much of a changed attitude, and until 22nd of Oct. when the protocol term expires, it is impossible to see one's way out of the present difficulty. Private telegrams from Chile received to-day are not favorable and hint at a strong opposition to the treaty, whilst as yet the Argentine Government has received no notice that the Chilian Congress has been convened. It is thought that the Senate will take 10 or 12 days more to despatch the question, and the opinion in the market is unanimous that the treaty will be approved by the Senate as it has been by the Deputies. The whole burthen of the business will rest with Chile; if Chile approves of the treaty, all will be well, but if not it is impossible to say what new turn this interminable question will take, and it is this uncertainty about this question that maintains gold even at its present trifling premium.

The sale of eight leagues of camp on the Salado in the Province of Sta. Fe, 20 leagues North of the city Sta. Fe, at the rate of 8,000 pats gold per league is reported; Dn E Bunge buyer. This is a most important sale and shows how much the Sta. Fe camps are improving in price. Mr Bunge visited camps South of this Province and then went to see the Sta. Fe camps which he purchased in preference.

Telegrams from London, yesterday's date, give francs on Paris at 25.70, which shows a great advance. The latest London quotations are in the *Nacion* telegram dated yesterday.

Don Pedro Luro, the wealthy estanciero and saladerista, has brought out 30 Basque families to settle on his fine lands on the sea in the far South.

The sale of three leagues of land on the Pique, adjoining Curumalan, is reported at $200,000 m/c per league; seller Mr Castex; buyer Mr Lett.

Neva sailed from Southampton on the 9th September, Rio Janeiro on the 2nd Oct., and Santos on 3rd Oct; experienced bad weather from 4th to 6th and arrived at Montevideo on the 7th instant. Brings a general cargo, two cows, four heifers and eighteen rams; also specie £144,000, viz: The Minister of Finance £94,000 bar gold, President of Provincial Bank £50,000 sovereigns. From Montevideo £40,000 for the Banco de Italia y Rio de la Plata.

No confirmation of the flight of Calderon, Peruvian President, is as yet received, but they all say on 'Change that the Chilian Mission to Peru will treat with Pierola, and thus close up all difficulties with Peru.

Gold at afterhours ruled at 25.55, barely sustained. If people wanted to buy this was the price they would have to pay, but if they wanted to sell no higher than 25.50 could be had, and we saw some parties who had gold to sell who held over until next week.

The advices from Dr Jorge in London are most favourable, but by no means so decisive as given out in the morning, and we must await other telegrams on Monday before we know how the 20 million loan really stands. Meanwhile a leading English house received a telegram to-day giving a further fall in Hard Dollars, 83, and Treasury Bills 113. Many think the fall in these stocks on the London market has only begun.

National Bank Shares at afterhours dropped to 118⅜ and then grew slightly firmer at 119 closing buyers. It is most remarkable that all the good news about Dr Jorge's mission so industriously spread in the morning did not put new life into Bank Shares and Cedulas, but they both rule weak and look downward. Some 1,500 Bank Shares sold at afterhours.

Mr Nicanor Fernandez sold another lot of new wool at the Plaza Once this morning, 300 arrobas, Olivera, at 95. No new wool in at the South Market.

The splendid prices paid at the Exhibition auctions of live stock are much spoken of; all the auctions most successful. Mr Lahusen's fine horse fetched 18,000 m/c.

The auction of 100 square leagues in Santiago del Estero at Baltar & Quesada's amounted to nil, not a single bid, but the rams of Nazar's sold well.

Telegrams from Genoa announce the sailing of Lavarello's steamer for the Plate with a thousand emigrants on board.

We received advices from Dean Dillon today from Galway; he has been making a most successful lecturing campaign, but the people want to know what lands the Government will give them if they come out, and the Government as yet has not sent definite instructions on this point to the Dean, who leaves for the Plate on Nov. 9th.

The mole was crowded to-day with friends to welcome the passengers and some to receive all the gold. The British Minister was received by Mr Egerton, Mr Vansittart, Mr. Bridgett and Capt. Baibridge, Mr and Mrs Forrester, and Miss Meeks, [Mr and Mrs Smithers, in fact all were enveloped in friends on the mole head.

Mr Williamson and family and Mr Neild and family leave on Tuesday in the Leibnitz for Europe; we wish them all a pleasant trip.

The sale of Mr Estregainon's wool of Chacabuco, 15,000 ar.; also Mr Quirno's same partido 4,000 ar. reported, the first at 75 and the second at 77; buyer Mr Ackons, barraquero.

Lr Homan left by afternoon train to-day for Rosario.

The amount of gold brought by the Neva we hear reaches £264,000, a heavy remittance, no wonder gold is down.

Exchange quoted to-day at 49⅜-½ London, 5.26 Antwerp and 5.24 Paris. Much offering

Discounts to-day 7 gold, 8 paper; brokers report paper money tight.

It was said on Change that Capt Manton's Gower-Bell Telephone business has grown to such dimensions that it can no longer remain in private hands, and that a Company is being formed to take it in charge; the value of this instrument is well-known here.

Dn Emilio Castro's house was besieged with visitors to-day; we are happy to say that he passed a good night and is reported better.

Circulars from the Oriental Telegraph Co. were given round to-day, announcing messages to Europe at reduced rates, 3.20 per word to England, 20 words to Rio 9.54.

We hold for our next an important letter from Bahia Blanca, signed San Blas.

Our market list published on Change to-day has given rise to great domestic debate; all the ladies dispute our prices.

The Sales at afterhours were—

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date Sept. 8th, 1881, is important:—

Wool—

The low prices which had been established by our July sales have enabled dealers to dispose promptly of their purchases; finding themselves thus encouraged they came back to our market quite ready to operate at the same rates. Thus a lively business sprang up and 2,961 bales changed hands, at prices which from the level of last auction rose to 5 centimes above the same. However this liveliness has been checked in these last days by unfavourable reports about the London sales; although fine Australian wools are firmly maintained, Capes and all the sorts competing with R. Plate wools are difficult of sale, and the prices for them are decidedly in favor of buyers. So we are now again nearly at a standstill, and every one is expecting further news from London in order to act in accordance with them.

The following is now our statistical position:—

| | Bales. |

Sheepskins—

Have in accordance with the article we just spoke about been in better request; prices, however, have undergone no change.

Sales, 75 bales.
Stock, 419 bales.

We have received the following for publication in this column:—

Buenos Aires, Oct. 8th, 1881

To the Editor of the *Standard*,

Dear Sir,

Knowing that every English reading sheepfarmer residing in this Province is a subscriber to the *Standard*, the pioneer of everything concerning the prosperity of this country, I beg leave to address you a few lines concerning the very best sheepdip ever used in this country.

It is well known amongst the estancieros and sheepfarmers what a number of remedies against scab are to be had in this city, but not everyone knows as yet which of them is the most effective.

Let me tell all the sheepfarming world that the best undoubtedly is Linck's far famed Tobacco Extract (South Down Sheepwash) the same which has obtained the only premium among all the remedies at the Exhibition of Melbourne.

For many years I have tried every remedy on my estancias, but with none of them have I obtained anything like the result which Linck's Tobacco Extract has given, either by dipping or by handouring with hot or cold water indiscriminately.

All estancieros who frequent town are aware of the excellence of this remedy, I therefore address these lines principally to those farmers 'medianeros' and 'puesteros' who have not the opportunity of exchanging ideas every day with their friends and neighbours upon this subject.

Try it, and you all will find that the use of it will benefit every sheepfarmer.

I am so convinced of the infallibility of Linck's Tobacco Extract (South Down Sheepwash) that I venture to predict the total disappearance of the scab in sheep as soon as every farmer uses it.

As I have not the pleasure to be a personal friend of Messrs Linck & Co. the above lines are not written in their interest but in that of my sheepfarming colleagues.

Yours very truly,
PATRICK HAM.

El remate se efectuara en la misma quinta

La mas grande, hermoso y variada coleccion de coniferos pinos, toyas y aromas.

Edificio elegante y comodo

**El Domingo 23 de Octubre**
A las 4 en punto de la tarde

Procederemos a vender por orden y cuenta del Sr Dr D Amancio Pardo, la famosa quinta arriba espresada, situada frente a la estacion y plaza del Caballito; al Sud-Oeste calle por medio con espleudidas propiedades de los Sres Zuberbuhler, Zorraquin, Niebuhr y D. Ventura Fernandez, al Norte con el Banco Nacional, y por el otro costade con los Srs Josbery, Orma y Olivera.

Esta renombrada quinta esta situada en la parte mas elevada en 30 leguas a la redonda de la ciudad de Buenos Aires, razon por lo que en este paraje jamas ha habido un caso de epidemia.

El Parque Ingles, en cuyo centro se encuentra la casa, se compone de una superficie de 47,000 vs cuadradas, y la base de venta por toda la gran quinta es la suma de 375,000 m|c en condiciones sumamente ventajosas para el omprador.

En ello se encuentran platas de un merito extraordinario, por su belleza y rareza. Un gran parque ingles, la mas vasta peluza, una coleccion de pinos, tuyas, aromos, la mas completa y hermosa que existe en el pais, y la fruta ha adquirido renombre.

El edificio perfectamente construido se compone de 5 grandes habitaciones comodas, ventiladas de gran altura, con una galeria de vidrios de colores al Sud, de abrir y cerrar adoptable a todas las estaciones, y al Norte una magnifico vestibulo. A estas habitaciones sigue un esplendido patio cercado de una pared y rejas de fierro altisimo, encuadrandolo de un lado y de otro cuatro habitaciones, cocina, letrina y todas construidas con buen material, maderas duras, ademas al lado de afuera hay tres habitaciones para quintero y sirvientes.

En una palabra, esto es necesario verse para formar juicio, por cuya razon, escusamos entrar en minuciosos detalles.

El jardin frutal es de lo mejor del pais, por la excelente calidad de su fruta, como asi mismo lo escogido de las legumbres.

Para ver el plano, como para cualquier otro dato, ocurrir a nuestra casa, San Martin 51.

La quinta esta a disposicion de los que quieran inspeccionarla.

Y han sido recientemente practicadas espresamente para vender, por cuya razon son tan bajas, llamando en consecuencia la atencion de los especuladores pichincheros, y demas que andan a la pesca de las oportunidades para efectuar compras de ocasion.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Diehl. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

Venderemos al mejor precio y dinero al contado cuatro preciosos potrillos de raza Hunter (carrera y salto) hijas del celebre puro Ingles (importado) Duke of Lancaster y cuyo pedegree es el siguiente:—

Genealogia del caballo entero embarcado en el vapor Kepler el 27 de Enero de 1875.

El Duke de Lancaster es un hermoso caballo saino negro de tres años de edad; tiene 16 palmos de alto y ya ha dado pruebas de ser un buen reproductor.

El Duke de Lancaster es hijo de Westminster, su madre es hija de Harry, su abuela de Whisker (hermano de Whallborne) vencedor del Derby en 1855, criado por el Duke de Ludo, su bisabuela es hija de Dick Andres y de Garner Gurton.

Garmnes Gurton es hija de Pharmond y Americs es hija de Marstre.

Westminster [padre del Duke] es hijo de Johnstone Miss Beverley [madre Westminster es hija de Stokport Matilda [abuela de Westminster) es hija de Cormus [hermana de Sivinton].

Cornus es hija de Shuttle Delplini y Sonbrouse Coubrouse es hija de Herard.

Stockport (padre de Miss Beverley) es hermano de Elis e hijo de Jerry vencedor del gran St. Leger

El Duke de Lancaster tiene en sus venas la mejor sangre del reino; sus antepasados han sido sanos, fuertes y hermosos, de solida construccion y de un color sin rival, su genealogia se remonta hasta los famosos caballos de Norfolk Bachelor, Old Warwick, Old England &c

He aqui la carta en que fue remitido el caballo al Sr Gainza.

B. Aires, 7 Diciembre 1875

Sr D M Gainza—Estimado amigo

Ahora tengo el gusto de adjuntar la genealogia de Black cuyo nombre es realmente Duke of Lancaster, y Vd vera con gusto que sus antecesores son de la sangre mas pura que tenemos en Inglaterra.

Youschstone Westminister Old Warwich etc. Son caballos muy acreditados en Inglaterra.

Me repito de Vd aff. y SS A. Ynglis Runciman.

He aqui los nombres de los potrillos.

## 14 leagues of land
IN
## LINCOLN
**On FRIDAY, 14th Inst.**
At 3 p.m.

Will be sold 14 leagues of the best land West of Lincoln, in lots of 1,000 hectareas (about 593 squares) with right to take 10,000 hectareas. Each lot is being surveyed and 'mojones' put down.

Basis of sale at the rate of $84,000 per league, about which amount can be paid to Government in eight yearly payments without interest.

Any amount over $84,000 per league to be paid cash.

These magnificent camps are about the same distance from Buenos Aires as the famous Venado Tuerto lands, and are

**guaranteed to be as good.**

No sand, no médanos, beautiful undulating land, capable of growing anything.

Such an opportunity as this for securing cheap land does not present itself every day.

Owing to the enormous increase in value of the central lands, owners of two or three flocks of sheep find it difficult to make a living, in fact are toiling the whole year for the landlord. Now is the opportunity for such men to become their own landlords.

European farmers do not require to be told how easy it is to refine land when the soil is good. In England all the grass would be 'pasto fuerte' if the land were not tilled and grass seeds put in.

A sheepfarmer and his peon can make a run for a flock of sheep in one year, raising trefoil, cardo and other grasses with care.

Now supposing that 1000 hectareas of the land that we sell fetch say $50,000, the purchaser can refine it in two year making it capable of carrying four flocks of sheep and consequently worth $1000 p square or $593000 for what he paid $50,000. So then, that we do not exaggerate we will cite the Partido of Rojas as an example. A few years ago the land there was all pasto fuerte, and was almost unsaleable. To-day there is land in Rojas worth $2000 p. square, and probably 50 leagues worth $1500 p. square. The same can be said of Pergamino, Chacabuco and other Partidos where the soil is not sandy.

The Province of Buenos Ayres will not sell any more public lands dadicating the amount available to colonies, so that land payable in eight years will soon be a thing of the past.

To make these lands worth $250,000 per league we only require wire fences, to make them worth 500,000 a railway, to make them worth 1,500,000 the plough, to make them worth 3,000,000 time, it is only a question of time. Let every man become his own landlord while there is yet time because the day is fast approaching when land will be beyond the reach of the poor man. Already two companies have been formed in London to purchase land in Buenos Ayres, and before many years probably half the land in the Argentine Republic will be in the hands of English capitalists. Then will be seen what is now common in Australia, a league of good land worth $8,000,000 m|c.

When we sold the Venado Tuerto lands at an average of $160,000 wisecares smiled and said we had 'clavado los Ingleses.' It is only seven months since, and yet these lands have advanced 25 per cent in value. Several leagues have been sold at a smart profit, and last week Mr. Edward W. Murphy, purchaser of five leagues, refused $200,000 per league and expects to close the business at 250,000.

On Friday, 7th inst., the plans can be seen at our office, Alsina 78.

The magnificent estancias of Duggan, Sanford, Grigg, Ham, Samson etc. etc., lands worth from $300,000 to $300,000, are only a few leagues distant.

Purchasers paying cash will obtain 25 per cent discount in the amount payable to Government.

## The Neva's Mails.

The *Standard* has a lengthy telegram from Cape Town giving some additional details connected with the loss of the Teuton. It appears that after rounding Cape Point the Teuton's course was shaped at 2.15 p.m. along the coast, and Agulhas light was expected to be made about 8 p.m. Dinner was just concluded when, at 7 p.m. the captain having just previously altered the course half a point more off shore, the ship struck. Mr Driver, the third officer, was on the upper bridge, the sky was clear and the moon up, but there was a haze over the shore, and the quartermaster on the lower bridge first saw land about 4 miles off, but no beach or breakers, and the look-out man on the forecastle gave no warning of danger. Suddenly the ship struck on her port side, and heeled over to starboard, canting her head to sea. The captain came on deck and mounted the bridge, where he remained to the end. Finding that the water was coming in he altered the couase for Simon's Bay. On first leaving the rock where she had struck, the Teuton steamed 12 knots an hour. This fell to 9, and then to 6. The compartment against which the collision had taken place admitted no water, but that next to the engine room filled, a plate having probobly started by the force of the blow. At 8 o'clock the captain ordered the boats to be lowered from their davits to the level of the bulwarks, and that supplies of provisions, water, and compasses should be placed in them, believing, howevr, that she would float for some hours. Mr. Rose-Innes, the surgeon, and Mr Cowen, the supercargo, took charge of the passengers, and made all sit quietly on deck. At ten o'clock the engines were stopped and the boats lowered. While in the act of being lowered one collapsible boat broke in pieces. Another was hanging over the ladder, and could be got clear of that which was embarking the passengers. Six got alongside, and the women and children were told off to take their places first. In the meantime perfect order prevailed. The male passengers retained their seats, only one, who was called to by his wife, making an effort to get on board. He was, however, forced back by the surgeon, and all then sat quietly. About thirty women and children had taken their places in the first boat, when the bulkead between the compartments gave way with a sudden crash. The water rushed into the engine room, and instantly the ship went down by the head. One loud cry of surprise and terror broke from the passengers seated upon the deck, and then in an instant all was over. All the officers went down with the ship, together with four of the boats, including the port cutter and lifeboat, which were not fairly clear of the ship. Those of the passengers and crew who rose to the surface clung to the floating wreck till picked up by some of those who had righted the third boat. At daylight the boats made for Simon's Bay, all who were clinging to the spars having been taken on board. One of the boats was blown past Cape Point. The others reached the docks there at midnight.

The *South Wales Daily News* today contains reports of the harvest prospects in Wales and the West of England from upwards of one hundred correspondents in the agricultural centres of the districts named. The general result is surprisingly satisfactory. In only one district is the report altogether bad. For nearly all places the reports show that the present fine weather has saved almost everything, and that the harvest will be much above the average of the last three years.

The *Magnet* to-day, in its review of the British corn trade during the past week, reports:—Although the temperature has been low, there has been a drying wind, and the ingathering of the crops has, therefore, been facilitated. Warmer weather is required in the late districts, but for all that there is no doubt that the last week has been an improvement over the previous week; and a continuance of even such weather as we have had would go far to stimulate the hopes of farmers. The yield of wheat is put at 10 per cent. below the average, barley 10 per cent above, and oats 20 per cent below.

All the Dublin papers to-day regard the Conservative victories as significant. The *Freeman's Journal* says:—"So long as the suspects are kept in prison, so long will the Irish vote in Ireland and across the Channel be hostile to the gaolers."

Mr. Bright, writing to an Irish tenant farmers' association, says the Land Act is a great and just measure, and ought to give great satisfaction to the Irish people. Mr. Parnell says it ought not. We shall see which knows the Irish people best, the Chancellor of the Duchy of Lancaster or the member for Cork.

Mr. Gladstone will find it harder to settle the Land Question, as it is called, in England and Scotland, than in Ireland, if the chairman of a meeting of Aberdeenshire farmers, which was held yesterday with a view to get up a testimonial to the Premier, speaks truly. This gentleman says that Ireland has got the three F's, but Scotland wants five F's. What the F's are the report does not tell us.

The following is an analysis of the members of the Council of the National Fair-Trade League:—English, Irish, and Scotch landowners, 28; English, Irish, and Scotch tenant-farmers, 10; Australian landowners, 3; bankers, manufacturers, and millowners, 45; merchants, factors, traders, shipowners, and brokers, 37; lawyers, 6; clergymen, 6; naval and military men, 3; retired from business, 14. They include one high sheriff, one C.M.G., one C.B., seven D.L's., and 48 J.P's.

**MALTINE.**
(Extract of Malted Barley, Wheat and Oats.)
The Original and only Reparative Composed of these three Cereals
MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.
"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.
MALTINE will increase both weight and flesh in most persons of thin habit.
MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.
For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.
MALTINE is the most important combination for use in Constipation.
MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.
MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.
**The Compounds of Maltine**
Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.
For Consumption and Wasting Diseases
MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.
MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.
MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

## Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.
